To whom it may concern,

**RE: Arthur Zeidler Ambassador reference**

Between May 2020 to January 2021, Arthur was an acting member of the Cudo Miner ambassador program. The program was aimed at building a team of ambassadors who would help build and maintain the Cudo Miner community. Arthur was offered the chance to become an ambassador because he showed vast experience and knowledge of cryptocurrency mining and technical support, together with the determination to expand and develop Cudo Miner into one of the leading cryptocurrency mining softwares on the market.

As an ambassador, Arthur would regularly monitor the Cudo Miner community (13,000+ active users) offering excellent technical support to users, testing our new software releases and reporting feedback, raising bug reports and constantly engaging in discussions, and outlining plans to improve and reshape the ambassador program as a whole.

Arthur's contributions to the ambassador program have led to major improvements in communication and professionalism within the program. Although we are sad that Arthur is leaving the program, we are comforted by the fact his ambition for the software to achieve complete stability and feature improvements will continue.

I was continuously impressed by Arthur's knowledge and professionalism he brought to his role as an ambassador, his dedication to the community led to significant user growth and satisfaction. In the past few months we experienced a number outages and platform wide instabilities, our ambassadors were at the forefront during this and managed to calm every situation down and keep our users loyalty to the software intact during turbulent times.

While Arthur's professionalism was immensely valuable to CUDO and the ambassador program, he was also a wonderful team player. Optimistic, engaging and easy to get along with, Arthur was an excellent ambassador and it was a pleasure to have him as a part of the program for the last few months. I am sure his talents, knowledge and professionalism will continue to help him with any future career plans he has.

Kind regards,
